

# Fogo Island Inn 2 Night Experience

**Vision**  
ATLANTIC VACATIONS  
Newfoundland & Labrador Travel Experts

Fogo Island Inn is an unexpected place at the edge of the world. This home for intrepid, curious and discerning high-comfort explorers was designed and crafted as a cultural and ecological hub. It is a place to experience the old and the new – through the fishery, art, architecture, design and food.

The landscape is honest, unsentimental and unafraid. The weather is a member of the community.

During the Island's remarkable seven seasons, its caribou herd browses upon lichen-carpeted terrain, humpback whales sail into the air and massive icebergs cruise slowly southward during long, leisurely summer days. The hills flourish in a generous bounty of wild berries during autumn.

In springtime, the island's wildflowers paint the landscape in a riot of happy colour.

Exceptional. Unexpected.
